(Malaysia Emergency Neurology Life Support)

Connexion Bangsar South
15-16 Oct 2022
MyENeLS
“Malaysia Emergency Neurology Life Support”

Background
Inspired by the concept “Early recognition and stabilisation within the first 1 hour”, MyENeLS is a modified life support course adapted from Emergency Neurology Life Support (ENLS). Our objective is to spread the awareness and enhance the knowledge of neurological emergency cases to improve the care given to them.

About this course
MyENeLS is a full 2 days course. It is divided into Basic MyENeLS and Advanced My ENeLS. On the first day, you will be learning basic neuroscience knowledge such as neuroanatomical tract in the brain and spinal cord, localisation of the lesion based on symptoms and symptom based structured thinking to arrive to the diagnosis. The skill station mainly targeting on how to perform neurological examination and interpret them in pairing with the history taking. The subsequent day will be focusing more on the structured approach and management of the specific condition such as stroke disorder and traumatic injury of the central nervous system.
Who should attend

Since this course is focusing on the basic knowledge of neurology and initial emergency management, it is highly suggested for house officers, medical officers and physicians working at:

- Emergency Department
- Medical Department
- District Hospital
- Primary Care Health Institution
